

THE ALL NEW TRU-TURF RE50

# A QUIET ACHIEVER

NEW

Official Licensed Product

**The only people who will know you have rolled your greens, will be the players enjoying it.**

Our whisper quiet 48v electric engine ensures you can prepare your greens while your neighbors sleep undisturbed, morning or night. Available in both lead acid or lithium powered.

Our intuitive quick release accessories let you easily change between slitting, spiking or brushing in seconds. No tools required.

The RE50 incorporates our patented self cleaning nodules. These remove clipping build up during rolling to eliminate

dumping and keep the smoothing rollers clean of debris for a smoother more even roll.

Our rollers are lighter, smarter, and more adaptable. Where other machines rely on weight to heavily compress the playing surface, our lightweight rollers create a smooth, true surface without compacting the soil beneath, resulting in better soil structure and healthier grass.

Contact your local dealer today to experience the results and features of not just any roller: the only roller officially endorsed by the US PGA for the result it delivers.

Official Licensed Product

The official choice of greenskeepers on the PGA TOUR, the Champions Tour and Nationwide Tour events throughout the USA and Canada.

**TRU-TURF**

Golf & Sports Turf Rollers

## RELIABLE AND VERSATILE

The patented tri-roller smoothing heads are fitted with hassle free, self cleaning nodules to eliminate dumping and debris impact. Heavy duty sealed bearings, rubber cushion mounts and two greasing points help reduce maintenance requirements.

Our innovative range of optional, toolless attachments increase productivity, providing great results through design, not weight.

Changing attachments has never been so easy. Simply remove the quick release safety pin & switch out the attachment.

## RE50 Specifications

<b>Engine</b>	
Type	48V AC Electric
Horsepower	18HP (13.5 kw)
Engine Cover	Fully enclosed
<b>Battery</b>	Lead Acid - Standard, Lithium - Optional
<b>Transmission</b>	
Manufacturer	Falk Ultramite
Type	Double reduction helical
<b>Drive Train</b>	Toothed belt
<b>Drive Roller</b>	Rubber coated, non-stick. Flexible, contour following
<b>Direction Control</b>	Fingertip switch
<b>Speed Control</b>	Progressive foot pedal movement, down/up
<b>Operating Speed</b>	0-9 mph (0-15kph)
<b>Steering</b>	Joystick - Light load, directly connected to smoothing head
<b>Seat</b>	Premium UV protected, with adjustable armrests
<b>Trailer</b>	Integrated, extra heavy duty, folds from rolling position to transport position
<b>Ground Pressure (Footprint)</b>	3.8 psi (26 kPa)

<b>Smoothing Heads</b>	2 overlapping, fitted with tri-rollers in each head, no gap between heads
<b>Rolling Width (Swath)</b>	50" (1270mm)
<b>Weight</b>	800 lb (364 kg)
<b>Drawbar</b>	
Lifting weight when connecting	25lb (11kg)
Ball style	Dual size 2" or 50mm
<b>Tires</b>	18 x 6.50 x 4. 4 ply
<b>Engine Start/Stop</b>	Recoil & Switch
<b>Brake</b>	
Roller	Regenerative - finger switch or foot pedal
<b>Lights</b>	AC/DC LED
<b>Battery Charger</b>	Universal 48V onboard (lithium & acid)
<b>Optional Equipment</b>	
Slicer - Quick release	15 blades, self-rotating on shaft & bearings Slice depth up to 7/8" (22mm)
Spiker - Quick release	30 wheels, self-rotating. SS shaft & bearings Spike depth 7/8" (22mm)
Brush - Quick release	Stiff or Medium strength bristles available
Drop down leg	Suits Ball style drawbar only
<b>Warranty</b>	2 years - Limited manufacturer's warranty.
