

BRUMBY

WE'RE CHANGING THE GOLFING LANDSCAPE. AGAIN.

Inspired by the robust Australian wild horse, the Tru-Turf Brumby is a **heavy-duty roller** designed to maintain **greens, approaches, tees, and fairways** with unparalleled precision. The Brumby features our **patented offset smoothing rollers**, which ensures a flawless turf finish. The Brumby boasts a **tri-drive system with six driven rollers across three rolling heads (9 rollers in total)** that provides a wide **70-inch** swath for efficient coverage.

Advanced features include **electric actuators** for seamless trailer wheel deployment and **articulated steering** for precision. A new innovation, **Tru Turf now with the CONNECT ASSIST™** simplifies trailer attachments, enhancing efficiency and operator safety. Powered by a **12hp Honda engine**, the Brumby ensures both performance and **turf-friendly** operation, backed by a 2-year warranty, making it an essential tool for modern greenkeeping.

Our **Single Drive Roller** option, comprising one drive roller in each head, provides a simplified rolling option for users. Our **Brush** Option, compatible with the single roller setup is ideal for delicate turf tasks like removing dew, brushing in sand after a topdress, providing a gentle yet effective touch to maintain the quality of greens.

**Designed in Australia.
Manufactured in USA.**
