

# RB48

## Golf Greens Roller

Designed in Australia.  
Manufactured in USA.

## WE'RE CHANGING THE GOLFING LANDSCAPE. AGAIN.

Built from the ground up for performance, safety and durability, the RB48 is Tru-Turf's **workhorse**. Its dual rolling heads utilises Tru-Turf's **patented offset rollers** to roll a 48" (1200mm) swath in a single pass.

While other greens rolling machines rely on weight to heavily compress the playing surface, Tru-Turf lightweight rollers deliver **smoothness and trueness** without compacting the soil beneath, resulting in **healthier greens**.

LED Lights can be added as an optional attachment. **Optional quick release attachments include Slicer, Spiker and Brush** to increase the productivity of the roller.
